

Unlock your future in Dutch healthcare with Eduployment

Starting salary from approx. €41,500 gross per year. Unique opportunity to grow during paid work into an EU-Recognised Qualified Nurse with a final salary of approx. €66,500 gross per year. (Salaries as of the 1st of July 2025)

Are you a motivated individual seeking a fulfilling career in healthcare, and are you interested in the Netherlands as your gateway to success? Look no further! Eduployment offers a unique opportunity for assistant nurses like you to excel in the Dutch healthcare sector, gain recognition, and grow into an EU-recognised qualified nurse. Here's how we can help you transform your career and unlock a world of possibilities:

Equal opportunities for assistant nurses

In the ever-expanding European labour market, equal opportunities are crucial for everyone. However, assistant nurses often face limitations due to their diplomas not being fully recognised. Eduployment is here to change that. We are committed to providing assistant nurses with equal opportunities in the Dutch labour market.

A Dutch alternative with added value

The Dutch education system stands out by offering a seamless transition from an assistant nurse (VIG in Dutch) to an EU-recognised nurse in just two years. We understand that your prior knowledge counts, so we focus on teaching you what you need to know, saving you time and effort. The best part? Your Dutch employer, partnering with Eduployment, covers the cost of additional learning modules, and your time spent in school is compensated as working hours.

The Netherlands: realise your dreams

Ranked second in Europe and among the top 10 in the world in healthcare, the Netherlands provides an exceptional environment for personal and professional growth. You will find an excellent work-life balance, allowing you to make the most of your time, whether it's for study, spending time with friends and family, or exploring the beautiful country.

Why choose Eduployment?

Who we are: Eduployment is a Dutch company specialising in Dutch language training for non-Dutch speaking professionals. We have been successfully running our programmes since 2002.

Our vision: We believe that everyone deserves happiness in their work. Work is not just about providing for oneself; it's about self-esteem and personal development. Language barriers should not hinder the ambition of the European Union to create a dynamic labor market.

Our mission: We aim to provide opportunities not only for nurses but also for assistant nurses. Eduployment offers you the chance to obtain an EU-recognised nursing diploma alongside work experience in the Netherlands, all financed by your Dutch employer.

Removing barriers: We address the two primary barriers assistant nurses face when working abroad - recognition of their diploma and Dutch language proficiency. Through assessment procedures and tailored language training, we ensure you are well-prepared to excel.

"I am really happy with my apartment and the location. I get asked all the time: but how did you arrange all that? It's so hard to find an apartment in the city, it's so hard to learn the language. The first thing that pops into my head is: Eduployment, that's how!"

Eirini Karefyllaki

(Greece / The Netherlands)

Carer in Nursing Home at Amsta

Training year: 2020

Choose your path!

Eduployment offers three distinct programmes to meet your needs:

1. Eduployment-Erasmus+ Internship Programme

Gain work experience in The Netherlands with financial benefits, including subsidised housing and additional support.

2. CV-Boosting Programme

Secure a direct employment contract, receive additional vocational training, and attain recognition as a VIG, all while enjoying an attractive salary and benefits. Subsidised accommodation available.

3. EU-Recognised Nurse Programme

Continue working as a VIG while pursuing a two-year nursing education paid for by your employer. This programme opens doors to a promising career with increasing annual salaries. Subsidised accommodation available.

Guaranteed support

Our Dutch healthcare employers are committed to your success. They invest in your language training, preparation, and aftercare, ensuring that you provide professional and loving care without language or cultural barriers.

"Life is quite peaceful here, in the Netherlands. People are quite easy-going. They take a table and a chair, put them outside and sit down with a glass of wine or a cup of coffee. They greet everyone in the street. And the Dutch work a bit more relaxed too, I believe."
