

**I have always dreamt about job experience in foreign country.**

**Urtė Raupytė**

Student Higher non university school of Nursing  
Šiauliai State College  
Lithuania

Training year 2017

Pleyade gave me a chance. Eduployment made it possible.

It was unforgettable experience for me as, a student nurse. But it is not only about the work, I had also an opportunity to travel and know more about Dutch culture, and, of course, learning Dutch language.

Sincerely, my Dutch skills weren't brilliant and I worried about this, but I was surrounded by friendly and helpful colleagues.

Besides, patients were very kind, good- natured and great personalities as well. Working in Pleyade, I learnt to see the patients in a frame of holistic view.

What about the job, my day job routine was patient's washing, helping with dress up, serving meals and taking patients into activities.

Finally, I really do think that this experience in Pleyade was, probably the best practice that I could do. Here, I expand my view about patients care and it let me be more professional nurse in the future.
